

Synthetic rubber Itray End Caps provide a cushioned finish at the end of cable tray runs, helping reduce abrasion and soften accidental contact with exposed tray edges. Designed for space-constrained modular applications, they fit 4-inch and 6-inch alumin

Features & Benefits

Aluminum construction provides a lightweight, high-strength, corrosion resistant offering well suited for almost any application. Tray construction and markings are per the latest edition of NEMA Standards Publication VE1, CSA C22.2 No. 126

Itray is classified as an equipment grounding conductor per NEC 392.60. Provides cushioning for edges to reduce chance of abrasion.

Specifications

General Info

Product Family / Series / Group	Itray Aluminum Ladder Tray	Product Line	Cablofil
Material	Synthetic Rubber	Application Sector	Data Center
