

The rack bracket mounts trays to angled rack tops, providing secure, parallel cable routing.

Wall supports provide secure, space-efficient mounting to walls or structures, ensuring strong, stable cable pathways while simplifying installation with compatible hardware and adaptable configurations.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

Angled Rack-Top Mounting: Secures wire mesh cable tray to angled-frame rack tops for organized overhead routing along equipment rows.

Complete 10-Piece Kit: Includes 10 RB112 brackets, 10 CE40 washers and 10 EZBN 1/4-inch bolt-and-nut fasteners for multiple attachment points.

Durable Carbon Steel Construction: Available with an electroplated zinc or black painted finish for commercial and industrial cable management applications.

Parallel Tray Alignment: Positions the cable tray parallel to the front of the rack, helping create a clean, consistent pathway above equipment.

Compact 1.5-Inch Profile: Each bracket measures approximately 1.5 inches wide by 1.5 inches deep for space-efficient mounting.

Specifications

General Info

Product Line	Cablofil	Application Sector	Data Center
Type	Supports		

Additional Information

Product Environmental Profile	Yes
