

This side-mount dropout creates smooth cable exits, protecting cables and enabling fast, hardware-free installation. Integrated wire mesh tray dropouts create smooth cable exit points, protecting cable jackets, maintaining proper bend radius, and ensuring quick, secure installation with easy-to-attach hardware.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

6- and 12-Inch Width Options: Available in 6- and 12-inch models that can be combined to support 18- and 24-inch cable transition widths.

No-Cut Tray Installation: Mounts over the side or end of the wire mesh tray without cutting or modifying the pathway, helping preserve tray strength and reduce installation time.

Integrated Tie-Down Slots: Built-in slots accommodate cable ties or straps to help organize and secure cables throughout the transition.

3-Inch Bend Radius: Creates a full 90-degree transition that eliminates pressure points and helps reduce stress on copper, fiber optic and communications cabling.

Interlocking Side-Wire Connection: Engages the tray's side wires to add rigidity and provide dependable support as cable bundles exit the pathway.

Specifications

General Info

Product Line	Cablofil	Application Sector	Data Center
Type	Dropouts		

Additional Information

Product Environmental Profile	Yes
