

Cablofil
Wire Mesh Slip-on Lock Nut®
Part No. SON

This slip-on lock nut secures threaded rod connections, enabling fast installation for trapeze-mounted tray pathways.

This kit includes two EX BN 1/4" bolts/nuts and two CE 25 washers, allowing secure right-angle connections between smaller and larger trays for stable, reliable support.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

No-Thread Installation: Slips directly onto threaded rod at the required location without being threaded from the end, helping speed support assembly and adjustments.

1/4- and 1/2-Inch Options: Available in sizes compatible with common threaded-rod dimensions used in wire mesh cable tray support systems.

Two-Piece Package: Each package includes two Slip-On Lock Nuts for cable tray support installation, modification or retrofit work.

Retrofit-Friendly Design: Ideal for adding nuts where installed equipment, tray supports or other obstructions prevent a standard nut from being threaded along the rod.

Durable Carbon Steel Construction: Electroplated zinc finish provides dependable performance for commercial and industrial indoor applications.
