

Cablofil
Wire Mesh Splice Washer Kit
Part No. SWK

This washer kit joins cable tray sections securely, enabling fast installation and reliable connections with standard hardware. Wire mesh tray splicing solutions securely join tray sections while enabling fast installation, strong connections, and flexible routing without complex hardware.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

50-Piece Splice Package: Supplied in packages of 50 to support multiple tray-to-tray connections and field-fabricated pathway configurations.

Versatile Splicing Applications: Connects straight tray sections and supports the fabrication of bends, turns and tees using compatible 1/4-inch fastening hardware.

Multiple Finish Options: Available in electroplated zinc, painted black, Geomet and 316L stainless steel configurations to match different tray finishes and installation environments.

UL-Classified Connection: Creates a UL-Classified splice that provides bonding between connected straight wire mesh cable tray sections.

Durable Metal Construction: Carbon steel options provide dependable strength for commercial and industrial cable management applications.

Specifications

General Info

Product Line	Cablofil	Application Sector	Data Center
Type	Splicing		

Additional Information

Product Environmental Profile	Yes
