

This universal mounting plate secures devices to cable tray, enabling fast, flexible installation with included hardware. This kit includes two EX BN 1/4" bolts/nuts and two CE 25 washers, allowing secure right-angle connections between smaller and larger trays for stable, reliable support.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

Tool-Free Tray Attachment: Twists and snaps directly into position on wire mesh cable tray without separate tray-mounting hardware, helping simplify installation.

All Tray Series and Sizes: Fits every Cablofil wire mesh cable tray series and size and can be mounted along the tray sides or bottom for greater placement flexibility.

Flame-Rated ABS Construction: Gray ABS material is UL 94 V-0 rated and RoHS compliant, providing a lightweight mounting solution for commercial and industrial applications. Supplied in packages of 10.

Universal Equipment Compatibility: Supports major brands of security cameras, wireless access points, routers and electrical boxes, eliminating improvised attachment methods such as zip ties.

Complete Device-Mounting Hardware: Each plate includes six Phillips pan-head screws, four hex nuts, four external star washers and two 1/4-inch spacers for mounting compatible equipment.
