

The Legrand 2" Deep Cablofil CFG tray offers low-profile cable management with a curved top for direct surface mounting.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

Compact G-Shaped Design: Helps contain cables within a low-profile pathway while keeping them organized and accessible.

Open Wire Mesh Construction: Promotes airflow, and keeps cables visible and accessible for maintenance and future changes.

Available in a Variety of Finishes: Electro Zinc and Black Painted.

Multiple Capacity Options: G-Tray accommodates a range of cable volumes, while the compact G-Mini provides targeted support for rack-mounted applications.

Field-Fabricated Flexibility: Easily cuts and forms into bends, tees and elevation changes to adapt to jobsite conditions.

Fast, Lightweight Installation: Manageable tray sections and streamlined accessories help reduce installation time and labor.

Specifications

General Info

Product Line	Cablofil	Application Sector	Data Center
Type	Straight Sections		

Additional Information

Product Environmental Profile	Yes
