

radiant Collection
radiant® Easy Switched Outlet Kit, White
Part No. WNREZK15WH

This kit uses a wireless switch to easily add on-wall control of an outlet, then simply flip the switch to control a plugged-in lamp or small appliance. To start, replace an existing outlet with the kit's radiant® 15A Outlet (wired). Then use the included battery-powered radiant® Wireless Switch to add on-wall control wherever it is desired. The Wireless Switch mounts to any wall or surface – without cutting, wiring or tools – using the provided adhesive. The devices come pre-paired, letting you add switch control in seconds. Want app control? These devices are equipped for enhanced functionality. Simply add a Smart Gateway with Netatmo and use the Legrand Home + Away app to control your lights from anywhere (and much more). For more information visit www.legrand.us/addappcontrol. Made exclusively for use with screwless Wall Plates from the radiant® Collection, sold separately.

Features & Benefits

Easily adds on-wall control of lamps or small appliances.

Ready to install, no configuration needed.

Outlet (Wired) Installation: Replaces any standard (wired) outlet in as little as 15 minutes.

Switch (Wireless) Installation: Mounts to any wall for long-lasting, battery-powered control.

One outlet is switch controlled, the other is always on.

Add a Smart Gateway with Netatmo to control lights via app, connect to other smart products and more.

Screwless Wall Plates included. Coordinate with other designer switches and outlets from the radiant® Collection for a cohesive, sophisticated look.
