radiant® LED Advanced Dimmer

Limitless Lighting Control

Perfectly illuminate any space with Legrand's latest LED advanced dimmer switch from the radiant® Collection. Engineered with advanced circuitry to provide flicker-free control of today's dimmable LED light bulbs and fixtures, the dimmer is designed to work right out of the box in both new and older homes, no neutral required. A simple and fast installation allows users to optimize the dimmer to adapt to virtually any LED, offering the widest adjustable dimming range on the market.

Give your clients the power of limitless lighting controls at their fingertips with the radiant® LED Advanced Dimmer.

Compatible with LED bulbs and fixtures.
Specifically designed for use with forward-phase dimmable LED bulbs and fixtures up to 150W at 120VAC (except for 0-10V LED drivers).

High- and low-end dimming range adjustability.
Simple tool free adjustment to precisely set the dimming range limits, while eliminating LED flicker and turn-on delays. Allows for the widest dimming range available on the market.

LED burst mode.
Includes an LED burst mode setting that can be used to eliminate or reduce LED turn-on delays and popcorning.

100% tested and contractor approved.
Advanced circuitry is optimized to work right out of the box and provide flicker-free control of LEDs, while reducing callbacks to a jobsite.

User-friendly 2-wire installation.
Installs easily in any single-pole or 3-way switch or dimmer location in less than 15 minutes and does not require a neutral wire.

Easily accessible QR code.
QR code is conveniently located on the front face of the device for easy access to installation resources and troubleshooting information.

Smooth dimming experience.
Low-profile paddle switch offers smooth on/off preset controls, and a separate ergonomic slider allows for precise adjustment of light levels.

Light settings saved in case of power outage.
Constant memory feature returns light levels and user adjustments to return to previous settings following a power failure or outage.

Designer style.
Complete the look with a sleek screwless radiant® Wall Plate and pair with other radiant® wiring devices to create a clean and cohesive look throughout the home.
