What do the adorne Furniture Power Center part numbers mean?

Here's a breakdown of how the part numbers are built. Generally speaking, you start with the number of gangs, move into the unit types, then finish with the color options.

Example:

AD3-2URPS-W

- **GANGS**
  - 1
  - 2
  - 3
  - 4
- **OPTIONAL**
  - Blank
  - HW=Hardwired
  - P=Mirrored Pair
- **UNIT**
  - U= 1 USB Charging Port
  - 2U = 2 USB Charging Ports
  - R= Duplex Unit
  - PS= Full Size Paddle Switch
  - P= Half Size Paddle Switch
  - H= Whisper Switch
  - T= sofTap Switch
  - HD= Whisper Dimmer
  - PP= 2 Half Paddle Switches
  - PD= Paddle Dimmer
  - TD= sofTap Dimmer
- **COLOR**
  - W= White
  - M= Magnesium
  - G= Graphite

How do I know the number of units I need?

It depends on the number of gangs. For example, a 1-gang solution will need one unit, a 2-gang solution will need two units, etc. Keep in mind that if you choose either the Half Paddle Switch or Half USB Charging Port, you'll need another half unit to create a 1-gang solution.

How many switches and outlets can I have per unit?

With the adorne Furniture Power Center, you are limited to two switches or four outlets per unit.

What is a mirrored pair?

A mirrored pair is a right and left version of the same adorne Furniture Power Center. It is used primarily in king rooms on either side of the headboard.

What does hardwired mean?

A hardwired adorne Furniture Power Center will not come with a plug-in receptacle. It will have an MC cable with a whip.

Which ones are standard product?

The following options are only stocked in small quantities for mock rooms. They are MTO for production.

PART NUMBER	DESCRIPTION

How do I purchase wall plates?

A limited selection of 1-gang, 2-gang and 3-gang colors are available through Wiremold. All wall plates purchased through Wiremold are sold in packs of 10. When purchasing wall plates for mirrored pair you would need to purchase two wall plates per pair. For example, one unit will require two wall plates, two units will require four wall plates, etc.

The following wall plate options are available to order through Wiremold.

CATALOG NUMBER	DESCRIPTION
AD1WP	1-Gang Furniture Power Center Wall Plate
AD2WP	2-Gang Furniture Power Center Wall Plate
AD3WP	3-Gang Furniture Power Center Wall Plate
