Built to Keep Installs *Moving*

Itray Ladder Cable Tray is engineered to reduce complexity across cable tray projects. By rethinking ladder tray design, Itray helps teams work more efficiently, whether you're installing, specifying or supplying.

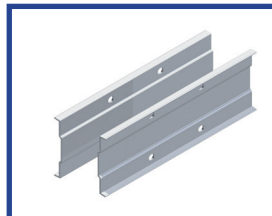

From fewer components to smarter accessories, Itray supports cleaner layouts and more predictable installs without unnecessary customization.

What Sets *Itray* Apart

Faster Installation. Fewer Parts.

Installs up to 30% faster with 50% less hardware, helping crews reduce labor time and simplify assembly.

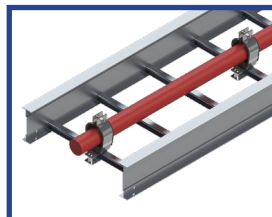

Simple Mid-Span Splicing

Allows quick mid-span splicing while maintaining full NEMA load class performance.

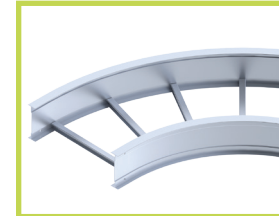

Stronger by Design

I-beam side rails create a stronger, lighter ladder tray that's easier to handle on the jobsite.

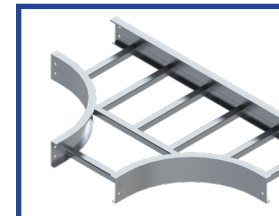

Smoother Cable Pulls

Cleaner pathway supports easier cable pulls and helps reduce potential cable damage.

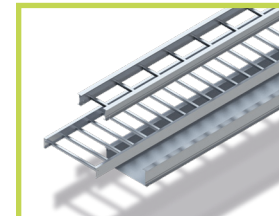

Precision-Fit Components

Fittings are designed to align cleanly, supporting smoother, more predictable installations.

Lightweight Aluminum Construction

Easier to handle, transport and install without unnecessary complexity.

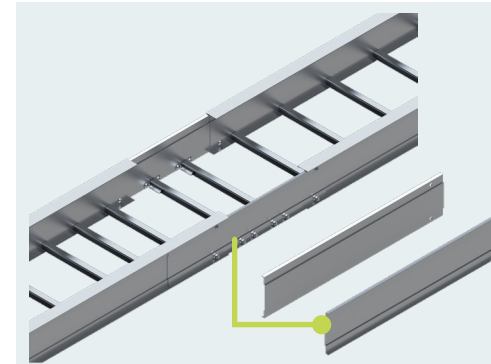

Industry Standard Tray Heights

Available in 4" and 6" depths for design flexibility.

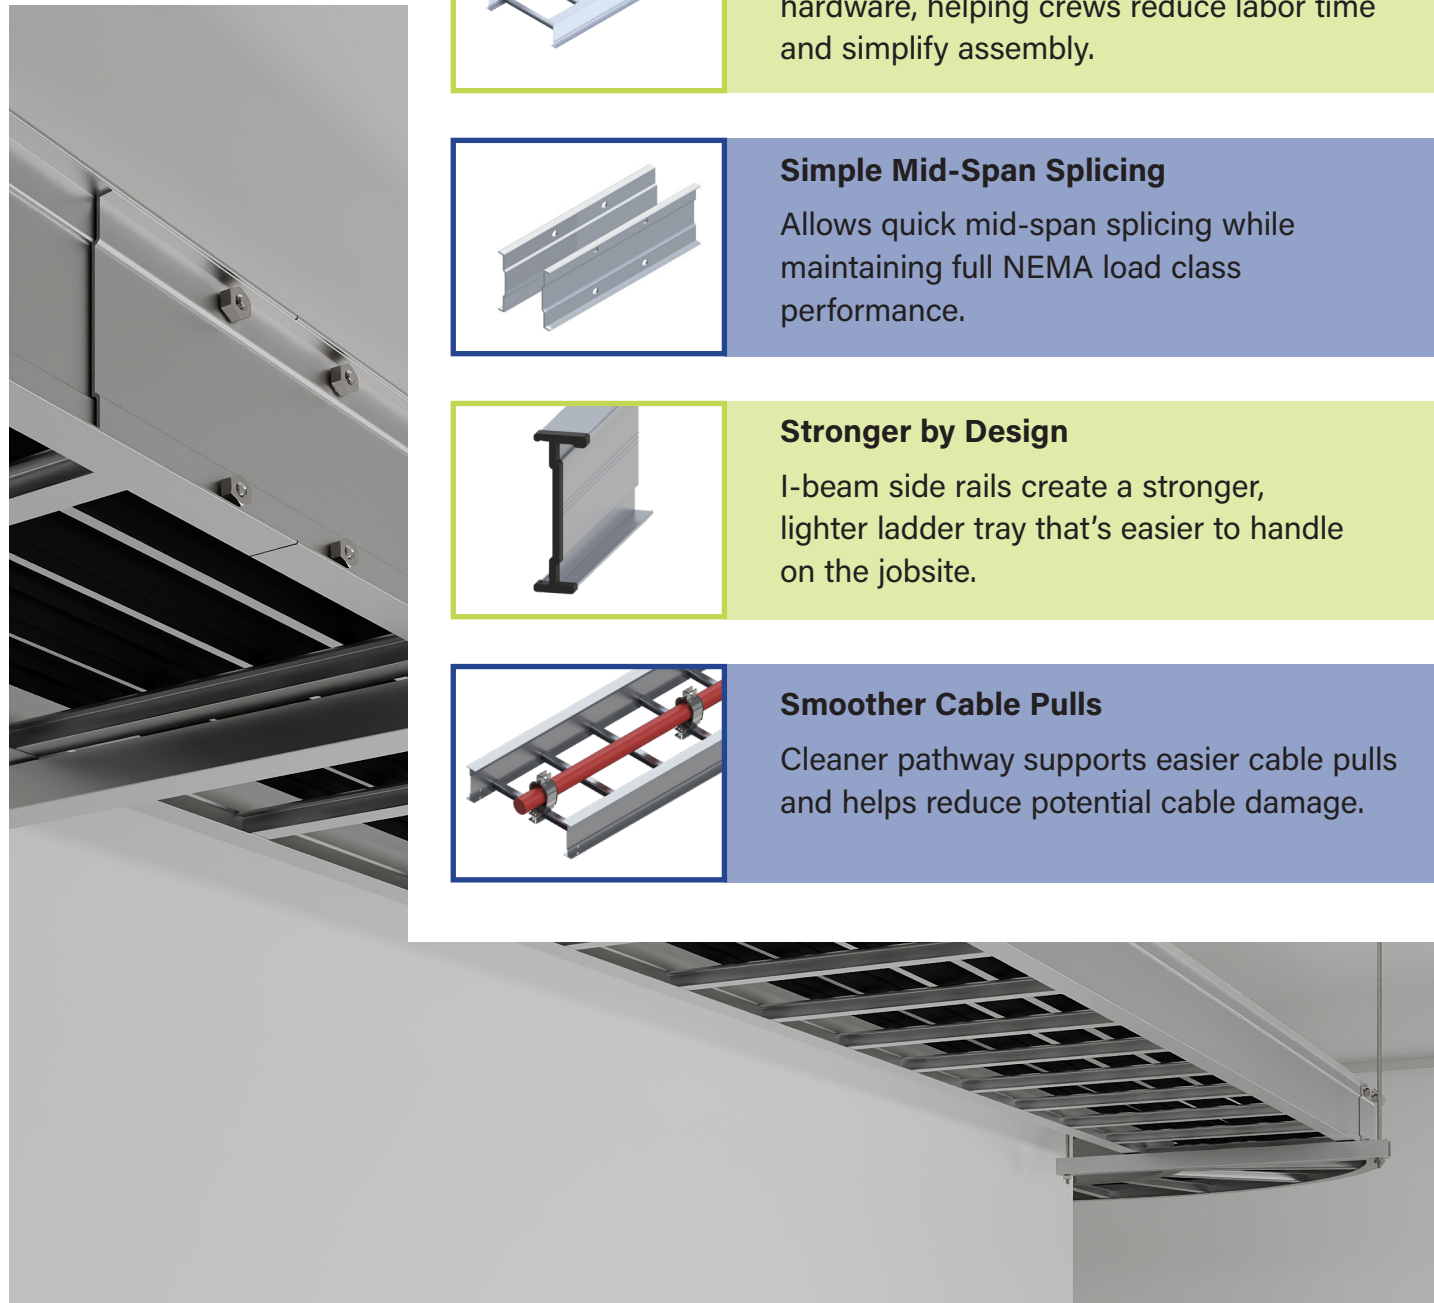

Compatible with Existing Systems

Designed to integrate seamlessly with most existing ladder tray installations.

GAP FILLER ACCESSORY

Gaps happen, but slow installations don't have to. The Gap Filler bridges small run gaps (up to two feet) without field cutting when spacing isn't perfect.

Get Itray Faster with *Tray Right Away*

Fast-Ship Program

- Get Itray faster, directly to your jobsite.
- Ships within 10 business days to help keep your projects on schedule.

A System That's Easy to *Install, Specify and Sell*

Itray is designed with both planning and execution in mind, helping reduce jobsite issues while supporting clean, consistent installations.
