Power for Every Position

Wiremold® Sit-Stand Desk Power

The demand for sit-stand desks continues to grow as employers invest in healthier, more ergonomic workspaces. Add power and charging to these desks with a flexible solution comprised of two units – one above and one below the desk. Connected via a 2' curled cord, this system simplifies cable management and makes it easier to be productive. Available in black or white

FEATURES & BENEFITS

Convenient USB-C charging at your fingertips: Enjoy up to 65W of USB-C and USB-A charging for all mobile devices and laptops right on the desktop.

Under-desk power outlets: Choose a power strip with either four or six 15A outlets to power monitors, docking stations and other peripherals.

Designed for all sit-stand workstations: Compatible with the full range of standard sit-stand desk height adjustments.

Fast, hassle-free installation: The desktop charging module securely clamps to the work surface (no screws required), while the under-desk power strip installs with just two screws (included).

Built to withstand spills: UL 962A Spill Water Compliant

At-a-glance charging status: An integrated light glows yellow when charging is in progress and green when the device is fully charged (65W models only).
