

Mighty Mo 20 Hex Pattern Vertical Cable Management Panel

MM20 Hex Pattern Vertical Cable Management Panels

provide an efficient way to manage rack cabling and can be mounted to MM20 in DAB and FXD 4-post racks. The unique honeycomb design allows for proper cable routing and cable bend radius control. The panels hex pattern will accept MM20 universal cable troughs, cable disks and hexguard cable protectors.

Features and Benefits

- **Vertical Cable Management Panel:** Simple to install cable management panel that accepts MM20 universal cable troughs, cable disks, and hexguard cable protectors to manage cables in any application.
- **Engineered Third Space:** This channel is designed to create a space between the racks and behind the front manager that is separate from the inner channel and can be used for fiber backbone, slack storage and front to rear routing of cables from inside the vertical manager to the rear of the rack.
- **Hex Pattern:** Allow cables to transition from the inside of the channels to the outside and provide mounting for the Universal Cable Trough. The hex pattern provide three-point stabilization and protection for horizontal distribution cables and fiber trunks

Compatible with:

- Mighty Mo 20 Dual Adjustable Base and Mighty Mo 20 Fixed 4-Post Racks (Racks Sold Separately)

Compatible with MM20 DAB Racks
