Wattstopper
Architectural Dimming Panel - with Secondary Terminal Board and Networking
Part No. LCAP44HS

The LCAP series of lighting control panels provides modular pre-configured architectural dimming and integration options for a wide range of commercial market applications.

Features & Benefits

Panel can be configured with one or two LVOS-0-10PWM modules each controlling up to four 0-10V, four PWM, and/or four high-voltage relay loads

The panel may also be configured to support up to two modules

Powerful controller offers integration using multiple RS232, RS485, and Ethernet (LCAP44H)

Adding a BACnet enabled controller allows the entire panel to be part of a BACnet system

PoE (Power over Ethernet) switch for touchscreens and integration

Multiple levels of secure network access to the system

Panel includes easy to wire terminal blocks for simple field wiring

Custom fitted hinged door

Space allocated for adding emergency lighting relays

Low-voltage barrier

Auto backup: full project file and 52 week updates on included microSD card
