LMRC-100 Series Digital Room Controllers include one or two relay(s) for on/off control of a total of 20 amps, and a highefficiency switching power supply. They are the foundation of a Wattstopper Digital Lighting Management (DLM) system, and allow integration of occupancy sensors, daylighting sensors and switches for energy-efficient lighting control.

Features & Benefits

Plenum-rated controllers with line voltage relay(s) and switching power supply

Plug to other components using Cat 5e cables with RJ45 connectors eliminating wiring errors

Support energy saving manual-on and bi-level lighting control strategies

Components of Digital Lighting Management integrated control systems

Plug n' Go automatic configuration for maximum energy efficiency

Specifications

General Info

Product Line	Wattstopper	UPC Number	754182930944
Country Of Origin	United States		

Additional Information

Product Environmental Profile	Yes
